The four Reviews re-published by Messrs. Scott & Co., are generally considered as the Great Reviews, and Blackwood has been justly places in the same rank. They may be read and studied with advantage ty the people of this country, of every creed and party.

TP BLACKWOOD is unusually attractive at this time, to Americans not only for its serial articles by distinguished writers of fiction, but for the account of the late civil war, now being written by Col. Von Borke, a German officer, chief-of staff to Gen. J. E. B. Stuart, of the Confederat

Fenian Movements. Despite the jibes and jeers of their fellow men, and in the face of seemingly insuperable difficulties, the misguided band of disaffected Irishmen calling themselves Fenians have succeeded in making a demonstration-if it amounts to nothing more seriouson their own soil, that was little anticipated. While no sane man for a moment believes that they can accomplish for themselves anything beyond total discomfiture, yet there is little doubt, from present appearances, that they will have it in their power to cause much annoyance not only to the English Government but to the loyal subjects of Great Britain in Ireland and elsewhere. What can we say, however, to the extraordinary action of Senator Nye, of Nevada, in introducing into the United States Congress a resolution sympathizing with an armed rebellion against a friendly power? The announcements of another threatened invasion of Canada, and the fitting out of a privateer to prey upon British commerce, may be, and probably are canards, invented for the purpose of squeezing more money out of the brotherhood, but such a resolution as that proposed, if carried through the United States Legislature, would be at once accepted by Great Britain as an overt casus belli which she could not suffer to pass unnoticed. We have a more exalted opinion, however, of the good sense, discrimination, and comity of the American Government, than to believe that it would voluntarily involve itself in a conflict with a friendly and unoffending power, by giving its assent to such an unprovoked insult; or that it would suffer the peaceful soil of Canada to be again invaded from the South, either of which might serve to plunge the only two nations speaking a common tongue, and closely allied by blood and commerce, in one of the fiercest and most destructive warfares that the world has vet witnessed. Fenianism, in its inception, was purely an American idea. It was hatched nurtured, and grew to maturity in the States. Had it not been for the sympathy and succor of the American people, Roberts, Sweeny & Co., with their bands of cutthroat robbers. would never have crossed the fron. tier, laid peaceful and happy homes desolate, and shed innocent blood. Were it not for the same countenance and support, arms, ammumunition, men and money would not be now finding their way to Ireland to fan the flame of rebellion and bring about civil war, with the horrors of which they have themselves been so recently sickened. That the Itish have wrongs to redress none will deny, and what Government so pure, so immaculate, that does not inflict wrongs of omission or commission upon portions of its subjects? But an appeal to arms against the State is not the way to obtain redress, and for the sake of order and humanity we hope the British Government, now that it is aroused, will make a terrible the object of which was to assist the men that it is aroused, will make a terrible example of those rebels who are seekin Ireland, and perfect harmony among all He asked him if he would not take one hun-

### sedition. Removal of the Custom House.

further progress of this

Dr Helmeken has given notice of a motion recommending the removal of zero. the Custom House to Victoria. The absurdity of maintaining two establishments for the collection of Customs dues when one would suffice, is patent to all. We might as well expect a merchant, desirous of transacting business in Victoria, to establish himself at New Westminster, as for the Collector of Customs to be of any practical service to the country by re maining where he is. We are told that when one officer and a tidewaiter are deemed sufficient to transact the heavy Custom House business at Victoria, it requires a collector and | not expected that they will be able to rethree other gentlemen to collect some new the war. Meantime a new ministry \$500 a-month at New Westminster. has been appointed in Constantinople favor-We hope that the motion of Dr able to reform. Helmcken, and the discussion it will provoke, will have the effect of putting an end to the absurdity.

Right face in popping the question, like a man. Quick march to her parents and ask their consent. File right with her to church, and go through the service of matrimony. Halt and reflect seriously upon the new duties which you have assumed, and then perform them. Right about face co, and then perform them. Right about face from the haunts which you have frequented when single, and prefer your own home. Advance arms to your young wife when out walking with her, and never leave her to trail behind. Break off staying out at night, and other bad habits, if you wish to have a happy home.—The Humourist.

THE YANKEE COLONY IN PALESTINE-A Constantinople correspondent writes: 'I wrote last week of the pitiable condition of the colony at Jaffa. The leader of the enterprise claims that the colonists have been plundered by the American Consul at Jaffa, and not by him. He has can Consul at Jalla, and not by him. He has appealed to Coustantinople to have the Consul impeached. It is true that several thousand pounds have pessed through the Consul's hands. He has purchased lands and other things for them. As he is a German Jew, not an American at all, it is possible some of this money may have stuck to his fingers, and any way it is a shame to our Government to appoint such a Consul there. But at the to appoint such a Consul there. But, at the same time, if I am correctly informed, the colonists feel that they have been deceived, if on not swindled, by the man who brought them out. THE LATE SIR W. PARKER-It is remark-Nelson's captains, should have commanded the last fleet of sailing line-of-battle ships that England will ever possess. In 1848 Sir William Parker might have seen the Blenheim, a ship but a very little better specimen of a man-of-war than that Orion in which he first went to sea, steaming about Spithead at | bark Scotland was sighted on her way up the then astounding rate of five miles per hour! The world was moving! for by 1854, to Capt. McCulloch for a copy of the Nanciwhen the Admiral's flag was flying at Plymouth, vessels like the Agamemnon and the Prince Albert, twice the size and four times the armament of Nelson's Victory, were dashing about the high seas at ten knots per hour without wind or sail. Sir William must have felt astonishment at the revolution that was taking place in his much-loved profession; but he was in no wise an obstructionist, and was not the man to be guilty of the act of an old Scotch contemporary of his, who in the Baltic was so astonished at the first screw gunboat's proceedings as to request her commander to take his " wriggling thing out of his sight as quick as possible, Sir."-Blackwood's Magazine.

WHAT DEAR FRIENDS!-The Universal German Gazette describes in the following curious terms the meeting of the King of Prussia and the King of Saxony at Grossbe ren :- "The Royal train stopped at the right side of a platform arranged for the occasion. King William walked quickly to meet King John, and said to him, 'Welcome, brother-inlaw !' The latter, holding his plumed hat in one hand, and with the other straight down by his side in quite a military attitude, said with a serious and deeply moved air to the ceremony, brother-in-law l'and kissed him on Royal carriage arm in arm, followed by the may be pronounced over. Prince Royal, Albert, who, with a profound bow, kissed the hand of the King of Prussia.

SHORT WEIGHT-Eight hundred and eight South London tradesmen have been fined during the present year at the Newington Sessions for having in their possession unjust weights and measures. This army of lawbreakers was made up as follows :- 250 publicans, 147 chandlers, 120 greengrocers and coal dealers, 95 bakers, 81 butchers, 40 grocers, 24 marine store dealers, 10 cheesemongers, 8 eatinghouses, 7 oilmen, 6 woolstaplers, 6 fishmongers, 5 milkmen, 3 confectioners, 3 corndealers, 3 zineworkers, 2 ironmongers, 2 rope and sail makers, and I cider seller. Several of the foregoing have been fined twice, thrice and some even four times, while the majority are church and chapel going "respectable' men and women. The fines inflicted amount to a total of £1286 16s 6d .- South London

Accident -In coming through the Narrows the Crosby got her jibboom in contact with one of those splendid specimens of the eccene " period which gracefully fringe that magnificent piece of water, and a fracture was the result. The services of Dr Bolton were at once secured, who quickly reduced the fractured limb; and she is now busily employed in relieving us of some of our surplus jewel wealth, which, paradoxical thought it may appear, we would be all the wealthier if more of it were taken from us .- Nanaimo Gazette.

NEW IDEA .- " PALACE OF FUN."-Tom Lafont and the Pixley Family will perform again at the New Idea this evening in an derson at noon yesterday. entirely new bill. "The Black Statue" will be the afterpiece, and the evening's entertainment will be interspersed with songs. dances and overtures. During the evening, a grand "match dance" between Miss Minnie and Lafont will come off. The prices of admission to this house have not been raised, but remain as before-25 and 50 cents. Go early to secure good seats.

SAW-MILL AT METLAHKATLAH.-Mr Duncan, of the above mission, took up a portion of the machinery for a saw-mill by the Otter on Saturday last. The remaining portion is to be sent on forthwith. Of late, the Siwashes under the reverend gentleman's care have made considerable progress in architectural skill, and have dwellings now as comfortable as any of their white neighbors. The demand for lumber has consequently so increased as to render the erection of a sawsmill imperative .- Nanaimo Gazette.

Malicious .- About two o'clock last Tuesday morning some miscreant flung a large stone through the parlor window of Mr Titford's house, on Haliburton street. Besides destroying several squares of glass, the miseile made a woeful inroad on some crockery that was placed on a table near by. The in mates had a narrow escape, as they had just risen from the table when the stone made its entree. We believe the outrage will form a subject for police investigation .- Nanaimo

OOLAHAN OIL -- We learn that a gentleman of this city is about to charter a large schooner and proceed to Fort Simpson, for the purpose of engaging in the Oolahan oil trade. These fish are caught in large numbers on the Northwest Coast of this Colony, and their oil is highly esteemed as a lubricator, &c. It is the intention of the projector, when a sufficient quantity of the oleaginous fluid shall have been obtained, to ship it to England from this port.

MUNICIPAL TAXES -The 29th of this month is the last day for the payment of rates, after which date five per cent. additional will be charged for thirty days. We would advise the public not to delay till the last

THE following model of testamentary condiseness is given in the account of the will of the late Mr Serjeant Storks, published in the Illustrated London News :- "I leave to my son, Robert Reeve Storks, all my personal property absolutely which is not specifically bequeathed. To Kearns, £50 a-year. Sir Henry and Mary are provided for. Tom I omit, as he possesses a fortune. Dated October 12, 1859." This brief document disposes of £120,000—say £3,000 per word.

FROM THE EAST COAST .- The steamer Sir James Douglas, Capt. Clarke, arrived yesterday from Nanaimo and the settlements with 12 passengers; among whom were Rev. A WORLDLY-WISE exhibitor at a late agricultural fair in Connecticut divided a bushel of peaches, entering one-half in his own name and the other in the name of a gentle man of some prominence in the vicinity. His own half was unnoticed, but the other half bushel took the prize, proving that there is something in a name.

REPAIRED-The Lands and Works Department is entitled to the thanks of the Esquimalters and the Fleet. Mr Pearse sent down on Wednesday and had the stairs at the landing strongly and substantially repaired. There is now no danger of any man with his wits about him and his eyes wide open, tumbling into the water in that locality.

Scrofula, or King's Eyil.

Is Constitutional disease, a corruption the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impare air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation," indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, cruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases: consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their, persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alternative medicine, and invigorate Hennessy and Martell do Bulk an case Arrac Seignette do do Otard Dupuy do do Robin do Compound Extract of Sarsaparilla, Sazerac do

Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofuld, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISTABLES, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER, and SAIT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSEPEISA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular bolief in, "impurity of the blood," is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and vitrue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.
